

Letter of Recommendation

This letter serves to confirm that Damian Soane completed a 150 hour internship at Authentic Vision in the fields of Marketing, Production and Graphic Design, between October 30th and December 14th, 2017, at our headquarters in Salzburg, Austria.

During his time at Authentic Vision, Mr. Soane worked on the creation of product photos, the editing and formatting of our marketing powerpoints and internal documents, the live editing to our company's website, the creation of step-by-step guides to our: Helios web portal, admin app, and a label reel preparation/application process. Mr. Soane also contributed to the creation of our company's corporate video, he optimized our social media management and use, and he compiled market data for a few of our target markets.

Throughout his internship, we found Mr. Soane willing to carry out any duties assigned to him which he completed in a very timely and professional manner. He showed great initiative and problem solving capabilities as he worked for the majority of the time independently. We are pleased to say that Mr. Soane had no trouble integrating to Authentic Vision's modern work environment.

We would like to thank Mr. Soane for participating and assisting in the daily routines at Authentic Vision and wish him the best for his professional and personal future.

Ivar van Dijk

Head of Products and Operations
